EMS Advisory Council Appointed by Governor

Governor William Donald Schaefer has announced the appointment of the 27 members of Maryland's Emergency Medical Services Advisory Council. This Council is the principal advisory body to the state's 11-member EMS Board, which was named by the Governor in July. The Board, with advice from the Council, is responsible for the coordination of all emergency medical services.

In the legislation that created the EMS Board and Advisory Council, the 1993 Maryland General Assembly charged the Council with the following responsibilities (in addition to its advisory role to the Board):

- To "provide a means by which regional emergency medical services interests can be represented at a statewide level,"
- To "assist in the development of goals for and facilitate the implementation of a comprehensive emergency medical services plan," and
- To "provide assistance in the resolution of interregional and interstate emergency medical services system problems and concerns."

The Council will recommend a chairperson from among its members, and the appointment must be approved by the Governor. The first Council meeting is scheduled for December 15.
